# Our Story

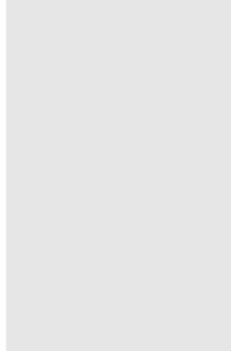

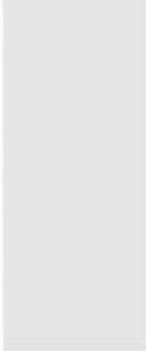

Founded in 1973 as a small 40 m2 sofa frame workshop, KOLSAN has grown since the year it was founded by transforming all the beauty of wood into art in skilled hands and has become a company at the forefront of interior furniture production with nearly 100 employees in an area of 11,000 m2 today.

KOLSAN is at the forefront of our country in the field of project-based loose and fixed furniture production, has trained dozens of masters in its own organization to date and has been the determinant of quality workmanship and qualified production in the furniture sector.

KOLSAN, which served furniture sales stores by producing home furniture in the early years of its establishment, has expanded its production since the 90s and has focused on projects for restaurants, cafes, hospitals, offices and villas, especially 5-star and above-star hotels, and has pioneered the creation of hundreds of spaces by prioritizing quality, durability and ergonomics in interior furniture production.

Especially in the production and placement of all mobile and fixed furniture of 5-star and above star hotels abroad, it has made its name with its solution partners by keeping customer satisfaction at the forefront. It has increased its awareness and product diversity by being the preferred supplier of certain hotel chains known in the world. As of 2023, which is the 50th anniversary of its establishment, KOLSAN has made the motto of "100% foreign customers" a goal under the leadership of the second generation and based on this, it has moved its works on branding, project design and sales to a different location under the name of the headquarters. It has become one of the important companies of its sector with its superior quality and capacity by being present abroad with its investments in Georgia, Canada and Romania under the leadership of the headquarters.

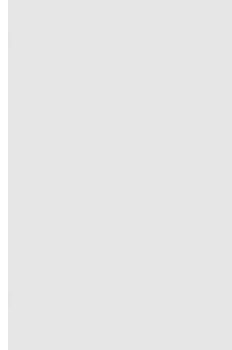

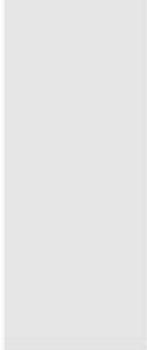

KOLSAN, which has put its signature on dozens of projects with its products at the same time with the size and diversity of its capacity; It takes its place as a solution partner next to its customers for all products from a very modern armchair to a classic armchair with gold leaf, from garden furniture to office furniture. The company, which contributes to the furniture supply of over 900 hotels both domestically and abroad, and always adopts the principle of "We produce, the world uses" with its employees and sectoral solution partners, will continue to develop and grow in the coming years on the way to becoming a world brand known not only in our country but all over the world with its quality, variety, long-term use and appreciation as it is used.

A photograph of the Divan Bodrum restaurant interior. The space features a wooden ceiling and large glass windows that offer a view of an outdoor swimming pool and a hillside at night. The pool is illuminated with blue lights, and the hillside in the background is lit up. The restaurant has several tables set with white linens, glassware, and plates, surrounded by wooden chairs with light-colored cushions. The overall atmosphere is warm and sophisticated.
